Dear DOJ:

I am pretty disgusted with your actions on Micro\$quish (ie microsoft). To suggest that they give "free products" to schools is outrageous! You just will let them increase their market this way. A much better solution would be for them to provide HARDWARE on which is PRE INSTALLED linux.

Then there would be no question that it would be to the benefit of the children.

I'm shocked that they have pushed you around this much. Perhaps they are paying you off?
